in Mokhotlong district where they currently keep 44 dairy cattle and milk production ranges from 160-400 liters per day.

They keep black diamond breed which is a cross-breed of Brown Swiss and Holstein cattle.

The startup capital is from the subscription of the members and shareholdings, but they have received finances and donations from UNDP (under GEF small grants), Letšeng Diamonds and the

market for both sour and fresh milk is Letšeng Diamonds, other mining companies around Mokhotlong, individuals and traders.
