

G7: TLALA NCHOBA

Tlala Nchoba is a farmer and produces grains at different times of the year. Annually, he harvests maize (4410, DKC and shesha), beans (pinto, sugar beans and NUA 45), and sorghum.

He started farming in 1984 with his family's help and now he cultivates his father's land of 35 to 53 acres de-

pending on how early he starts to cultivate, if he starts early he covers all the land but sometimes he does not.

He harvests 13 tons of sorghum, 16 tons of maize and lastly, 10 tons of

beans. From 1984, his market has always been the community, initiation schools, schools and cattle post

Now he cultivates his father's land of 35 to 53 acres
