

# Hi: TŠEPO SEPANYA

Tšepo Sepanya is a potato farmer who cultivates the land at Masaleng in Mokhotlong district.

He cultivates potatoes (usually BP1 or any other certified seed type that is available on the market) on a two hectare area and produces up to 700 bags of potatoes per cultivation. Occasionally, he produces cabbage and

harvests about 20 000 heads. He sells to individuals in Mokhotlong town, businesses as well as Caterers. He has never received any funding and has funded his business from the start of it in 2011.

Mr Sepanya covers the area of 2 acres which regularly produces about 500-700 bags of potatoes. When he first started planting potatoes, he used PK1 seed for few years, but this season he used Electra seed. He does soil preparations by application of manure. He is self-sponsored.

*He produces up to 700 bags of potatoes per cultivation.*
